

A technical drawing of a mechanical assembly, likely a valve or fitting. The drawing shows a main body with a vertical section labeled "BLIND COUNTERFLANGE". A horizontal pipe section is attached at the top, labeled "Ø 25". Below this, another pipe section labeled "Ø 25" extends downwards and to the right. A third pipe section labeled "Ø 15" extends further down and to the right. A fourth pipe section labeled "Ø 25" extends downwards and to the left. A fifth pipe section labeled "Ø 20" extends downwards and to the right. A sixth pipe section labeled "Ø 32" extends downwards and to the left. The drawing also includes labels for "GARVATU, THAIANG", "WATER JET CUTTING", "W.E. SPRINTER", "KATA VALVE", and "HOLLOW Ø 32 MM".

A technical drawing of a structural frame, likely a concrete column section. The frame consists of vertical columns and horizontal beams. Key dimensions are labeled: a vertical column on the left is labeled 'H.L.' at the top and has a height of '1.50' indicated by a dashed line from its base; a vertical column on the right is labeled 'H.L.' at the top and has a height of '1.50' indicated by a dashed line from its base; a horizontal beam at the top is labeled '1.20'; a diagonal brace on the left is labeled '1.50'; and a diagonal brace on the right is labeled '1.50'. There are also labels 'I.V.' and 'S.V.' indicating internal and side views respectively.
